Can Mold IBM Model 160

(700/1200 ETB)

Can Mold / Pet All is offering a new model IBM 160 Ton (700/1200 ETB) which has an extended trigger bar (44").

The standard trigger bar on our 189 Ton machines is 38.9" (38.9). The trigger bar on the 160 (700/1200 ETB) is 44".

The price of the IBM 160 is only \$7,000 USD more than the 315 Ton. With a minimum of (+5") trigger bar, without any loss in speed, the IBM 160 Ton has a big commercial advantage.
